

Professional Summary

Associate Professor of Computer Science in the Department of Mathematics and Computer Science at Santa Clara University, with experience teaching introductory computer science and data science courses at lower and upper division levels. Research interests include social network analysis, network science, machine learning, and data mining, with a focus on influence maximization, opinion dynamics, deep reinforcement learning, and interdisciplinary AI applications. Published in leading journals and venues, including IEEE Transactions on Network Science and Engineering, IEEE Transactions on Computational Social Systems, and CIKM. Committed to advancing student learning through innovative pedagogy, active research engagement, and mentorship that fosters student curiosity and intellectual growth.

Educational Background

Ph.D. in Computer Science

May 2020

THE UNIVERSITY OF TEXAS AT DALLAS, RICHARDSON, TEXAS

- **Dissertation Title:** Optimization Problems for Maximizing Influence in Social Networks
- **Advisor:** Dr. Weili Wu
- **Committee:** Dr. Weili Wu, Dr. Farokh B. Bastani, Dr. Andras Farago, Dr. W. Eric Wong

M.S. in Computer Science

May 2017

THE UNIVERSITY OF TEXAS AT DALLAS, RICHARDSON, TEXAS

- **Thesis Title:** Cross-Domain Data Fusion for Disaster Detection
- **Committee:** Dr. Weili Wu, Dr. Latifur Khan, Dr. B. Prabhakaran

B. Tech. in Computer Science and Engineering

July 2015

WEST BENGAL UNIVERSITY OF TECHNOLOGY, INDIA

Research Interests

Graph Mining, Network Science, and Social Network Analysis: Influence Maximization, Information Diffusion, Opinion Dynamics, Fixation Maximization, Evolutionary Graph Processes, and Hypergraph Analysis.

Machine Learning for Networked and Combinatorial Systems: Deep Reinforcement Learning, Learning-Augmented Algorithms, Graph-Based Machine Learning, Data Mining, Scalable Network Optimization, and Predictive Analytics.

Applied and Interdisciplinary AI: AI for Digital Mental Health, Therapeutic and Supportive Uses of Large Language Models, Computational Social Science, Sentiment and Behavioral Analysis, Anthropology-Informed Social Modeling, and Historical Text Analysis.

Academic Appointments and Research Experience

Department of Mathematics and Computer Science, Santa Clara University

Santa Clara, CA

ASSOCIATE PROFESSOR

June 2026 – Current

ASSISTANT PROFESSOR

Sept. 2020 – June 2026

- Teach foundational CS courses covering programming, computational thinking, problem solving, and core data structures.
- Teach upper-division courses in data science, data mining, machine learning, and applied computational methods.
- Serve as a research advisor for faculty-student projects in machine learning, deep learning, reinforcement learning, and combinatorial optimization, guiding methodology, experimentation, and research dissemination.
- Contribute to departmental and university service through committee work, faculty search participation, and campus-level leadership in high-performance computing initiatives.

Department of Computer Science, University of Calcutta

Kolkata, India

RESEARCH ADVISOR

Sept. 2022 – Present

- Working with faculty and Ph.D. students on research projects in Reinforcement Learning, particularly in the context of Influence Maximization in social networks.

PH.D. RESEARCHER

Aug. 2017- May 2020

- Developed scalable algorithms for influence maximization and group influence analysis in social networks.
- Designed and executed experiments on real-world graph datasets to evaluate algorithmic performance.
- Prepared research manuscripts and presented findings through technical reports, and conference submissions.

Department of Computer Science, University of Texas at Dallas

Richardson, TX

MASTER'S THESIS STUDENT

Jan. 2016–Nov. 2016

- Aggregating useful data on natural disasters from different domain sources (such as Bing and Twitter) for proper monitoring and mitigation of social disasters using Big Data and Name-Entity Recognition techniques.

Department of Computer Science, University of Calcutta

Kolkata, India

UNDERGRADUATE RESEARCH ASSISTANT

May 2014 - April 2015

- Collaborated with faculty and fellow undergraduate students to design a new service discovery approach for community-based web
- Worked on designing a framework for health facilities for organizing remote health care for patients.

Book and Book Chapters

1. **B1 Smita Ghosh**, Shivvrat Arya, Venkatesh Srinivasan, “How Network Evolution Shaped Influence Maximization: A Survey”, *Encyclopedia of Social Network Analysis and Mining*, 2026
2. **B2 Smita Ghosh**, Zhao Zhang, “Algorithmic Aspects in Information and Management: 18th International Conference, AAIM 2024, Virtual Event, September 21-23, 2024, Proceedings. Part II”, *Faculty Book Gallery*, 2024
3. **B3 Smita Ghosh**, Jianming Zhu, Weili Wu, “Composed Influence Maximization in Social Networks”, *Nonlinear Combinatorial Optimization*, Springer 2019

Funded Research Contributions

PI / Co-PI

2024–2026

- PI, 2026: Funded collaborative project titled “Understanding the Emotional Dependency on Generative AI Chatbots for Mental Health and Emotional Support”- Phase 1.
- Co-PI, 2025: Funded collaborative project titled “Examining ChatGPT’s Unintended Therapeutic Role through Social Media Using a Machine Learning Approach”- Phase 2.
- Co-PI, 2024: Funded collaborative project titled “Examining ChatGPT’s Unintended Therapeutic Role through Social Media Using a Machine Learning Approach”- Phase 1.

HPC Center Catalytic Project-Based GrantSanta Clara University; supported by the
Fletcher Jones Foundation

Co-PI

2026

- Funded catalytic project titled “Deep Reinforcement Learning for Opinion Maximization in Social Networks.”

Teaching and Mentoring Experience**Department of Mathematics and Computer Science, Santa Clara University**

Santa Clara, CA

COURSE INSTRUCTOR

Sept. 2020 - Present

- **Lower-Division Computer Science:** Taught core undergraduate courses emphasizing programming foundations, computational thinking, and algorithmic problem solving.
 - *Introduction to Computer Science* – taught using C++ from Fall 2020 to Spring 2022 and Python from Fall 2022 onward.
 - *Data Structures*
- **Upper-Division Computer Science:** Taught advanced undergraduate data science courses emphasizing applied modeling, data-driven reasoning, and computational methods.
 - *Introduction to Data Science and Machine Learning*
 - *Data Mining*
 - *Advanced Machine Learning*

Department of Math and CS, Athletics Department, Santa Clara University

Santa Clara, CA

COURSE INSTRUCTOR/MENTOR

January 2025 - June 2026

- **Sports Science and Data Analytics:** Designed and led a project-based, hands-on independent study course in collaboration with SCU Athletics, enabling students to apply data science methods to real-world athlete performance data.

Department of Counseling Psychology, Santa Clara University

Santa Clara, CA

GUEST LECTURER

April 2025, 2026

- **Special Topics: AI for Psychotherapy:** Invited to deliver a guest lecture on Introduction to Machine Learning for a graduate course on AI applications in psychotherapy.

Summer Research Program, College of Arts and Sciences, Santa Clara University

Santa Clara, CA

RESEARCH MENTOR

2022 – Present

- Mentor undergraduate students on research projects involving machine learning, data analysis, deep reinforcement learning, social networks, and applied computational methods.
- **Selected mentored projects:**
 - *Predicting California Wildfire Severity with Machine Learning: Classification and Regression* – 2022
 - *Generating Homophone Words as Password Guesses* – 2023–2024
 - *Closed-Network Influence Maximization in Social Networks using Deep Reinforcement Learning* – 2024–2025
 - *Capacity-Constrained Influence Maximization with Deep Reinforcement Learning* – 2025
 - *Understanding the Emotional Dependency on Generative AI Chatbots for Mental and Emotional Support* – 2026–Present
 - *Tracking Semantic Drift: A Diachronic Analysis of Large Text Corpora* – 2026–Present

Department of Computer Science, University of Texas at Dallas

Richardson, TX

INSTRUCTOR

May 2019 – Aug. 2019

- **Computer Science for Non-Majors:** Prepared lectures and class activities on foundational programming concepts using Java and the Processing IDE for non-CS majors.

TEACHING ASSISTANT

Aug. 2017 - May 2020

- Database Systems (Undergraduate)
- Database Design (Graduate)
- Securing the Cloud (Special Topic in CS, Graduate)
- Algorithmic Aspects in Telecommunication Networks (Graduate)

Summer Camp organized by the Chinese Association of Science and Technology at the University of Texas at Dallas

Richardson, TX

PROJECT MENTOR

June 2018 - Feb. 2019

- Dermatologist Level Skin Cancer Image Classification
- Comparison of Machine Learning and Deep Learning in Sentiment Analysis of Twitter Data.

Professional Recognition and Honors

- | | |
|------------|--|
| 2026 | Nominated for the Brutocao Undergraduate Teaching Award in recognition of excellence and sustained impact in undergraduate teaching and student learning, Brutocao Undergraduate Teaching Award, Santa Clara University |
| 2022 | Best Oral Presentation Award for paper titled "Detection of Clickbait Content Spreaders on Online Social Networks", 2022 5th International Conference on Information and Computer Technologies (ICICT) |
| 2022 | People's Choice Best Poster Award, IEEE Rising Stars Poster Competition for poster titled "Assessing Users' 'Happiness Factor' by Analyzing Posts on Social Media for Mental Health Support", IEEE Rising Stars Poster Competition |
| 2019 | Computing Research Association for Women (CRA-W) Scholarship, Received student travel grant |
| 2018, 2019 | Grace Hopper Celebration (GHC) Scholarship, AnitaB.org, Received student scholarship |

Professional Service

Academic Leadership and University Service

- Faculty Co-Director, WAVE High Performance Computing (HPC) Center, Santa Clara University (2022–Ongoing).
- Committee Member, National Center for Women & Information Technology (NCWIT) Bay Area; reviewed scholarship and award applications from high school students (2023).

Editorial Service

- Editor, *Theoretical Computer Science* (2024–Ongoing).
- Editor, *Discrete Mathematics, Algorithms and Applications* (DMAA) (2023–Ongoing).

Conference Organization and Leadership

- Publicity Chair, Women in Data Science (WiDS 2022–2024).
- Finance Co-Chair, 16th Annual International Conference on Combinatorial Optimization and Applications (COCOA 2023)
- Web Chair, EAI International Conference on Smart Grid and Innovative Frontiers in Telecommunications (SmartGIFT 2023).
- Finance Co-Chair and Registration Co-Chair, Conference on Combinatorial Optimization and Applications (COCOA 2020).
- Web Co-Chair and Registration Chair, 39th IEEE International Conference on Distributed Computing Systems (ICDCS 2019)

Program Committee and Technical Program Committee Service

- Program Committee Member, International Conference on Combinatorial Optimization and Applications (COCOA 2023)
- Program Committee Member, International Conference on Algorithmic Aspects in Information and Management (AAIM 2021, 2022).
- Track Program Committee Member, 15th EAI International Wireless Internet Conference (WiCON 2022).

Session Chair Service

- Session Chair, International Conference on Machine Learning Techniques and Data Science (2022).
- Session Chair, International Conference on Information and Computer Technologies (2022).

Journal and Conference Reviewing

- Reviewer, International Conference on Information and Computer Technologies (ICICT) (2023, 2025).
- Reviewer, *IEEE Transactions on Computational Social Systems* (2020–Ongoing).
- Reviewer, *Theoretical Computer Science* (2020–Ongoing).
- Reviewer, *Information Sciences* (2023–Ongoing).
- Reviewer, *Entropy* (2023–Ongoing).

- Reviewer, International Conference on Combinatorial Optimization and Applications (2023).
- Reviewer, 55th Annual Conference of the German Society for Biomedical Engineering (2021).
- Reviewer, International Conference on Algorithmic Aspects in Information and Management (AAIM 2021).

Work Experience

Sensata Technologies

Attleboro, Massachusetts, USA

BUSINESS ANALYST INTERN

May 2016 – August 2016

- Worked on logistics projects, specifically the 'ASN Resend Implementation' in Oracle Applications.
- Designed a billing report for a customer by querying manufacturing data from various tables in Oracle Databases.

Orient Infotech Pvt. Ltd.

Kolkata, WB, India

DATABASE MANAGEMENT SYSTEM TRAINEE

June 2013

- Participated in hands-on training on Database Management Systems.

Tata Consultancy Services

Kolkata, WB, India

SUMMER INTERN

June 2012 – August 2012

- Designed a Ticket Management Tool as part of a summer project using JSP and Java technologies.

Technical Skills

Programming Languages:	Python, R, SQL, Java, C, C++, PL/SQL
Machine Learning Tools:	TensorFlow, PyTorch, scikit-learn, Keras
Data Analysis:	Pandas, NumPy, SciPy, Matplotlib, Seaborn
Database:	Oracle, MySQL, NoSQL
Web Technologies:	JSP, JavaScript, HTML, CSS
Version Control:	Git, GitHub
IDEs:	VS Code, NetBeans, Eclipse, PL/SQL Developer, RStudio, Anaconda Navigator
Productivity Suite:	MS Office, LaTeX, LibreOffice
Other:	Oracle Forms Developer, Oracle Applications

Academic Projects

- **Sales Management Database** **Database Design, August – December 2015**
Designed, developed, and tested a sales management database for a home builder company to streamline transaction processing and reporting.
- **Tweets Clustering using K-Means** **Machine Learning, August – December 2015**
Developed a clustering algorithm to group similar tweets together, creating a concise and organized representation of raw tweets to enhance Twitter-based applications.
- **Intelligent Load Balancer** **Software Defined Networks, January – May 2016**
Implemented an intelligent load balancer using the POX Controller, making flow-balancing decisions based on real-time statistics gathered from switch interfaces and network nodes.
- **Negative Recommender System** **Big Data Management and Analytics, August – December 2016**
Developed a recommendation system that predicts places a user is unlikely to visit based on prior experiences, using large-scale data analytics.
- **Traffic Violations Near School Zones** **Semantic Web, January – May 2017**
Utilized semantic web technologies to analyze traffic violation patterns near school zones in Maryland from 1998 to 2014, aiding policy recommendations.
- **Object Identification using CNN** **R for Data Science, January – May 2019**
Implemented convolutional neural networks (CNNs) in R for object identification in images, evaluating performance across datasets.
- **IMDB Movie Plot Summarization** **R for Data Science, January – May 2019**
Designed a search engine that summarizes movie plots and retrieves relevant information using NLP techniques.

Organizational Responsibilities

Completed at Santa Clara University

- 2020 - **Computer Science Committee Member**, Department of Mathematics and Computer Science
Ongoing
- 2022 - **Faculty Co-Director**, WAVE High-Performance Computing (HPC) Center
Ongoing
- 2022 - **DEI Committee Member**, Department of Mathematics and Computer Science
Ongoing
- 2021, 2022, 2024, 2025 **CS and Math Faculty Search Committee Member**, Department of Mathematics and Computer Science
- 2025 **Committee Member**, Peer Evaluation Committee
- 2024 **Committee Member for ACM Curriculum Review for Program Review**, Department of Mathematics and Computer Science

Completed at The University of Texas at Dallas

- 2019–2020 **Officer**, Women Who Compute
- 2018–2019 **Project Mentor**, Science Fair of Texas (High School Student Mentor)
- 2018-2019 **Project Mentor**, CAST Summer Camp
